

ASJPI is proud to present the FAAPI 2016 logo, designed by Nuria Añó. Here is the designer's rationale behind her creation:

—This logo is based on the concepts of “multidisciplinarity,” “growth” and “collaboration”. The triangular figure is structured through an arrangement of smaller triangles in interaction (*collaboration*) in a variety of colours (*multidisciplinarity*). The composition works to create an upward pointing arrow, symbolizing the idea of *growing*, while resembling the mountainous landscape in San Juan. —
